

# HOME FOR LIFE

## THE LIFEHOUSE TRAINING CENTER

The large training room, with flexible seating will provide trainings not only for Lifehouse participants and staff but also for other care providers in the special-needs community, leveraging Lifehouse's expertise to assist other organizations serving similar populations.

The new building will also offer opportunities for Lifehouse activities for individuals we serve, including: **Movie Nights** on the large monitor in the training room; **Summer BBQs** on the terrace; **Potluck Dinners** in the café; **Game Nights** in the training room. Families of those in our teen programs will benefit as well in having much needed respite and enrichment for their family member.

# HOME FOR LIFE

## FLEXIBLE FLOOR PLAN

The building requires renovation and ADA compliant upgrades to accommodate Lifehouse's particular service needs in a flexible floor plan that also meets the needs of its diverse client base.

The flexible floor plan accommodates mixed-use and small meeting needs throughout the building where participants can gather with their care providers, social workers and staff, in order to fully maximize the space.

"open concept" workstations

touchdown workstations

focus rooms

Lifehouse's permanent home will offer the Bay Area a symbol of its diversity, optimism and the dignity it affords a traditionally "unseen" community.
